April 1, 2003

TO: All Holders of the Field Office Technical Guide

VERMONT TECHNICAL GUIDE NOTICE NO. 9A

PURPOSE: Drainage Areas of Vermont Streams

EXPIRATION DATE: Upon Receipt

BACKGROUND: The revised FOTG Engineering Number Tech Reference #8, Drainage Areas of Vermont was sent out with FOTG Notice #9 on March 7th. Unfortunately, after this document was released several mistakes were found. The mistakes have since been corrected and we are releasing it again. We apologize for the inconvenience.

Again, because of the poor legibility of the existing document and the fact we wanted an electronic copy, Drainage Areas of Vermont Streams has been retyped. This new document will be much easier to read and there will be electronic copies available for easy file transfer and storage. The content of Drainage Areas of Vermont Streams has not been changed.

FILING INSTRUCTIONS: Please file Drainage Areas of Vermont Streams dated April 2003 in the Field Office Tech Guide, Section I, Engineering Numbered Technical Reference #8. Please remove and discard the existing document. Revisions have already been made to the eFOTG.

If you have any questions regarding these standards, please give me a call.

/s/ Jeff Sanders
State Resource Conservationist
